

NISSAN SAFETY SHIELD 360

STANDARD ON 10 MODELS IN 2021

including **Sentra, LEAF, Maxima, Kicks, Rogue Sport, TITAN** and the **all-new 2021 Rogue**.
Three more to come!

NISSAN  INTELLIGENT MOBILITY

SAFETY SHIELD 360 is a suite of **six standard technologies** that help provide 360 degrees of active driver assistance, crash avoidance and pedestrian detection.

AUTOMATIC EMERGENCY BRAKING WITH PEDESTRIAN DETECTION² uses forward-facing radar and camera technology to track vehicles and crossing pedestrians, and can give audible and visual warnings and apply braking to help avoid or reduce the severity of a frontal collision

HIGH BEAM ASSIST automatically switches to low beam headlights when it detects a vehicle ahead and turns the high beams back on when needed

LANE DEPARTURE WARNING¹ alerts driver of drifting from lane with a visual warning and audible or haptic signals

BLIND SPOT WARNING³ helps spot vehicles in driver's blind spot areas

REAR AUTOMATIC BRAKING⁵ helps the driver detect stationary objects when backing up and, if necessary, applies the brakes to help avoid a collision

REAR CROSS TRAFFIC ALERT⁴ can warn the driver about detected approaching vehicles when reversing out of a parking spot

1. LDW only operates when lane markers are able to be detected. See Owner's Manual for safety information.

2. AEB with Pedestrian Detection cannot prevent all collisions and may not provide warning or braking in all conditions. Driver should monitor traffic conditions and brake as needed to prevent collisions. See Owner's Manual for safety information.

3. BSW cannot prevent collisions and may not detect every object or warn in all situations. Driver should always turn and look before changing lanes. See Owner's Manual for safety information.

4. RCTA may not detect all vehicles. See Owner's Manual for safety information.

5. RAB cannot prevent all collisions and may not provide warning or braking in all conditions. Driver should always turn and check surroundings before driving and brake as needed to prevent collisions. See Owner's Manual for safety information.
